Directors' Responsibilities and Approval

The director is required in terms of the Companies Act 71 of 2008 to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report, it is ris responsibility to ensure that the annual financial statements fairly present the state of affairs of the company as at the end of financial year and the results of its operations and cash flows for the period then ended, in conformity with international Financial Reporting Standards. The external auditors are engaged to express an independent opinion on the annual financial statements.

The annual financial statements are prepared in accordance with international Financial Reporting Standards and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and

The director acknowledges that he is ultimately responsible for the system of internal financial control established by the company and places considerable importance on maintaining a strong control environment. To enable the director to meet these responsibilities, the board sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above repreach. The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The director is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The external auditors are responsible for independently auditing and reporting on the company's annual financial statements have been examined by the company's external auditors and their report is presented on page a 4 to 5.

The annual financial statements set out on pages 6 to 22 were approved by the board onsigned on their behalf by:	and were

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF BE-TABS INVESTMENTS PROPRIETARY LIMITED

We have audited the financial statements of Be-Tabs investments Proprietary Limited set out on pages 6 to 22, which comprise the statements of financial position as at 31 March 2016, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory

Directors' Responsibility for the Financial Statements

The Company's directors are responsible for the preparation and fair presentation of these audited financial statements in accordance with international Financial Reporting Standards and requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of the audited financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these audited financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the audited financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the audited financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the audited financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the audited financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the audited financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the audited financial statements present fairly, in all material respects, the financial position of Be-Tabs Investments Proprietary Limited as at 31 March 2016, and its changes in equity, financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

Annual Financial Statements for the year ended 31 March 2016

Accounting Policies

1. Presentation of annual financial statements

The annual financial statements have been prepared in accordance with international Financial Reporting Standards, and the Companies Act 71 of 2008. The annual financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

1.1 Significant judgements and sources of estimation uncertainty

in preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Impairment testing

At each reporting date the company assesses all financial assets, other than those at fair value through profit or loss, to determine whether there is objective evidence that a financial asset or group of financial assets has been impaired.

The company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the statement of profit and loss and other comprehensive income. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the statement of profit and loss and other comprehensive income.

Taxation

Judgement is required in determining the provision for income taxes due to the complexity of legislation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The company recognises itabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deterred tax provisions in the period in which such determination is made.

The company recognises the net future tax benefit related to deferred income tax assets to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future. Assessing the recoverability of deferred income tax assets requires the company to make significant estimates related to expectations of future taxable income. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the company to realise the net deferred tax assets recorded at the end of the reporting pariod could be impacted.

(Registration number 1993/003349/07)

Annual Financial Statements for the year ended 31 March 2016

Accounting Policies

1.1 Significant judgements and sources of estimation uncertainty (continued)

Trade receivables

The company assesses its trade receivables for impairment at the end of each reporting period, in determining whether an impairment loss should be recorded in profit or loss, the company makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables is calculated on a portfolio basis, based on historical ides ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio.

Allowance for slow moving, damaged and ebsolete stock

An allowance is made for stock to write stock down to the lower of cost or net realisable value. Management have made estimates of the selling price and direct cost to sell on certain inventory items.

1.2 Financial Instruments

Classification

The company classifies financial assets and financial liabilities into the following categories:

- Loans and receivables
- Financial liabilities measured at amortised cost

Initial recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the company has transferred substantially all risks and rewards of ownership. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Derecognition

Financial assets are derecognised when the rights to receive each flows from the investments have expired or have been transferred and the company has transferred substantially all risks and rewards of ownership.

impairment of financial assets

At each reporting date the company assesses all financial assets, other than those at fair value through profit or loss, to determine whether there is objective evidence that a financial asset or group of financial assets has been impaired.

For amounts due to the company, significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default of payments are all considered indicators of impairment.

Impairment losses are recognised in profit or loss.

impairment losses are reversed when an increase in the financial asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the financial asset at the data that the impairment is reversed shall not exceed what the carrying amount would have been had the impairment not been recognised.

Reversals of impairment losses are recognised in profit or loss except for equity investments classified as available-for-sale.

Where financial assets are impaired through use of an allowance account, the amount of the losa is recognised in profit or loss within operating expenses. When such assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

(Fiegistration number 1993/003349/07)

Annual Financial Statements for the year ended 31 March 2016

Accounting Policies

1.2 Financial instruments (continued)

Loans to (from) group companies

These include loans to and from holding companies, fellow subsidiaries, subsidiaries, joint ventures and associates and are recognised initially at fair value plus direct transaction costs.

Loans to group companies are classified as idens and receivables.

Loans from group companies are classified as financial liabilities measured at amortised cost.

Trade and other receivables

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest rate method.

Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand.

1.9 Tax

Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for these periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period,

Tax expenses

Current and deferred taxes are recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from:

- a transaction or event which is recognised, in the same or a different period, to other comprehensive income, or
- a business combination.

Current tax and deferred taxes are charged or credited to other comprehensive income if the tax relates to items that are credited or charged, in the same or a different period, to other comprehensive income.

Current tax and deferred taxes are charged or credited directly to equity if the tax relates to items that are credited or charged, in the same or a different period, directly in equity.

1.4 Impairment of assets

The company assesses at each end of the reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset.

irrespective of whether there is any indication of impairment, the company also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.
- tests goodwill acquired in a business combination for impairment annually.

Be Tabs Investments Proprietary Limited (Registration number 1993/003349/07)

Annual Financial Statements for the year ended 31 March 2016

Accounting Policies

1.4 Impairment of assets (continued)

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash-generating unit is the higher of its fall value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in profit or loss. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets other than goodwiff may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset other than goodwill attributable to a reversal of an impairment lose does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or americation other than goodwill is recognised immediately in profit or loss. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

1.5 Stated capital and equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Ordinary shares are classified as equity.

1.6 Revenue

Interest is recognised, in profit or loss, using the effective interest rate method.

(Registration number 1993/003249/07)
Annual Financial Statements for the year ended 31 March 2016

Notes to the Annual Financial Statements

2. New Standards and Interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the company has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Amendment to IAS 19: Defined Benefit Plans: Employee Contributions

The amendment relates to contributions received from employees or third parties for defined benefit plans. These contributions sould either be discretionary or set out in the formal terms of the plan. If they are discretionary then they reduce the service cost. Those which are set out in the formal terms of the plan are either linked to service or not. When they are not linked to service then the contributions affect the remeasurement, When they are linked to service and to the number of years of service, they reduce the service cost by being attributed to the periods of service. If they are linked to service but not to the number of years' service then they either reduce the service cost by being attributed to the periods of service or they reduce the service of the period in which the related service is rendered.

The effective date of the amendment is for years beginning on or after 01 July 2014.

The company has adopted the amendment for the first time in the 2016 annual financial statements.

No impact of this amendment in the current year.

Amendment to IFRS 13: Fair Value Measurement: Annual improvements project

The amendment clarifies that references to financial assets and financial liabilities in paragraphs 48–51 and 53–56 should be read as applying to all contracts within the scope of, and accounted for in accordance with, IAS 39 or iFRS 9, regardless of whether they meet the definitions of financial assets or financial liabilities in IAS 32 Financial instruments: Presentation.

The effective date of the amendment is for years beginning on or after 01 July 2014.

The company has adopted the amendment for the first time in the 2016 annual financial statements.

No impact of this amendment in the current year.

Amendment to IAS 24: Related Party Disclosures: Annual Improvements project

The definition of a related party has been amended to include an entity, or any member of a group of which it is a part, which provides key management personnel services to the reporting entity or to the parent of the reporting entity ("management entity"). Disclosure is required of payments made to the management entity (or these services but not of payments made by the management entity to its directors or employees.

The effective date of the amendment is for years beginning on or after 01 July 2014.

The company has adopted the amendment for the first time in the 2016 annual financial statements.

No impact of this amendment in the current year.

Amendment to IAS 16: Property, Plant and Equipment: Annual improvements project

The amendment adjusts the option to proportionately restate accumulated depreciation when an item of property, plant and equipment is revalued, instead, the gross carrying amount is to be adjusted in a manner consistent with the revaluation of the carrying amount. The accumulated depreciation is then adjusted as the difference between the gross and not carrying amount.

The effective date of the amendment is for years beginning on or after 61 July 2014.

The company has adopted the amendment for the first time in the 2016 annual financial statements.

No impact of this amendment in the current year.

Amendment to IAS 40: Investment Property: Annual improvements project

(Registration number 1993/003349/07)

Annual Financial Statements for the year ended 31 March 2016

Notes to the Annual Financial Statements

2. New Standards and Interpretations (continued)

The amendment requires an entity to determine whether the acquisition of investment property is the acquisition of an asset or a business combination, in which case the provisions of IFRS 3 Business Combinations applies.

The effective date of the amendment is for years beginning on or after 01 July 2014.

The company has adopted the amendment for the first time in the 2016 annual financial statements.

No impact of this amendment in the current year.

2.2 Standards and interpretations not yet effective

The company has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the company's accounting periods beginning on or after 01 April 2016 or later periods:

Amendment to IFRS 5: Non-current Assets Held for Sale and Discontinued Operations: Annual Improvements project

The amendment clarifies that non-current assets held for distribution to owners should be treated consistently with non-current assets held for sale. It further specifies that if a non-current asset held for sale is reclassified as a non-current asset held for distribution to owners or visa versa, that the change is considered a continuation of the original plan of disposal.

The effective date of the company is for years beginning on or after 01 January 2016.

The company expects to adopt the amendment for the first time in the 2017 annual financial statements,

It is unlikely that the amendment will have a material impact on the company's annual financial statements.

Amendment to IFRS 7: Financial instruments: Disclosures: Annual improvements project

The amendment provides additional guidance regarding transfers with continuing involvement. Specifically, it provides that cash flows excludes cash collected which must be remitted to a transferse. It also provides that when an entity transfers a financial asset but retains the right to service the asset for a fee, that the entity should apply the existing guidance to consider whether it has continuing involvement in the asset.

The effective date of the company is for years beginning on or after 01 January 2016.

The company expects to adopt the amendment for the first time in the 2017 annual financial statements.

It is unlikely that the amendment will have a material impact on the company's annual financial statements.

Amendment to IAS 19: Employee Benefits: Annual Improvements project

The amendment clarifies that when a discount rate is determined for currencies where there is no deep market in high quality corporate bonds, then market yields on government bonds in that currency should be used.

The effective date of the company is for years beginning on or after 01 January 2016.

The company expects to adopt the amendment for the first time in the 2017 annual financial statements.

It is unlikely that the amendment will have a material impact on the company's annual financial statements.

Disclosure initiative: Amendment to IAS 1: Presentation of Financial Statements

The amendment provides new requirements when an entity presents subtotals in addition to those required by IAS 1 in its annual financial statements, it also provides amended guidance concerning the order of presentation of the notes in the annual financial statements, as well as guidance for identifying which accounting policies should be included. It further clarifles that an entity's share of comprehensive income of an associate or joint venture under the equity method shall be presented separately into its share of tiems that a) will not be reclassified subsequently to profit or loss and b) that will be reclassified subsequently to profit or loss.

(Registration number 1983/003349/07)
Annual Financial Statements for the year ended 31 March 2016

Notes to the Annual Financial Statements

2. New Standards and Interpretations (continued)

The effective date of the company is for years beginning on or after 01 January 2016.

The company expects to adopt the amendment for the first time in the 2017 annual financial statements.

It is unlikely that the amendment will have a material impact on the company's annual financial statements.

IFRS 9 Financial Instruments

IFRS 9 Issued in November 2009 introduced new requirements for the classification and measurements of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include a)Impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a "fair value through other comprehensive income" (FVTOCI) measurement category for certain simple debt instruments.

Key requirements of IFRS 9:

- All recognised financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the outstanding principal are generally measured at amortised cost at the end of subsequent reporting periods. Debt instruments that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments or principal and interest on outstanding principal, are measured at FVTOCI. All other debt and equity investments are measured at fair value at the end of subsequent reporting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income with only dividend income generally recognised in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of the liability is presented in other comprehensive income, unless the recognition of the effect of the changes of the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Under IAS 39, the entire amount of the change in fair value of a financial liability designated as at fair value through profit or loss is presented in profit or loss.

in relation to the impairment of financial assets, iFRS 9 requires an expected credit loss model, as opposed to an
incurred credit loss model under IAS 39. The expected credit loss model requires an entity to account for expected
credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk
alnoe initial recognition, it is therefore no longer necessary for a credit event to have occurred before credit losses
are recognised.

The new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in IAS 39. Under IFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that quality for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been replaced with the principal of an "economic relationship". Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

The effective date of the standard is for years beginning on or after 01 January 2018,

The company expects to adopt the standard for the first time in the 2019 annual financial statements.

It is unlikely that the standard will have a material impact on the company's annual financial statements.

The aggregate impact of the initial application of the statements and interpretations on the company's annual financial statements is expected to be as follows:

Annual Financial Statements for the year ended 31 March 2016.

Notes to the Annual Financial Statements

Figures in Rand

2016

2015

16. Risk management

Liquidity risk

Cash flow forecasting is performed in the operating entitles of the company in and aggregated by company finance. Company finance monitors rolling forecasts of the company's ilquidity requirements to ensure it has sufficient cash to meet operational needs.

The table below analysis the company's liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial position date to the contractual maturity date. The amounts disclosed below are the contractual undiscounted cash flows.

At 31 March 2015

Trade and other payables

Lese than 1 year 68 700

interest rate risk

The company has interest bearing assets in the form of cash balances at year end, the company's income and operating cash flows are substantially independent of changes in market interest rates.

The company's interest rate risk arises from long-term borrowings, from related party borrowing within the group. These borrowing accrue interest at 8.5%.

At 31 March 2016, if interest rates on Rand-denominated borrowings had been 0.5% higher/lower with all other variables held constant, post-tax profit for the 12 months would have been R 50,000 (2015: R 50,000) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents. The company only deposits cash with major banks with high quality credit standing and limits exposure to one counter-party (Ranbaxy Pharmaceuticals (Pty) Ltd).

17. Events after the reporting period

The directors are not aware of any matter or circumstance arising since the end of the financial year, which might have a material impact on the reported results.
