AUDITOR'S REPORT

TO THE SHAREHOLDERS OF SUN PHARMA EGYPT (L.L.C.)

Report on the Financial Statements

We have audited the accompanying financial statements of **SUN PHARMA EGYPT (L.L.C.)**, represented in the statement of financial position as of 31 March 2021, and the related statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

These financial statements are the responsibility of the Company's Management, as Management is responsible for the preparation and fair presentation of the financial statements in accordance with Egyptian Accounting Standards and applicable Egyptian laws. Management responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. This responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on those financial statements based on our audit. We conducted our audit in accordance with Egyptian Standards on Auditing and applicable Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the financial statements are free from material misstatement.

The company's financial statements for the financial year ended on 31 March 2020, were audited by another auditor and issued an unqualified report on 21 May 2020

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's professional judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on those financial statements.

Opinion

In our opinion, the financial statements referred to above, give a true and fair view, in all material respects, of the financial position of **SUN PHARMA EGYPT (L.L.C.)**, as of 31 March 2021, and of its financial performance and its cash flows for the year then ended in accordance with Egyptian Accounting Standards and the related applicable Egyptian laws and regulations.

Emphasis of a matter

Without qualifying our opinion, We draw attention to note (2-1) of the notes to the financial statements, that the company's accumulated losses exceeded its issued and paid up capital amounted to EGP 97,449,611 as of 31 March 2021, which raises material uncertainty that may result in significant doubt on the company's ability to continue as going concern. The financial statements were prepared under the going concern assumption since the parent company will continue to support the company in meeting its liabilities as they fall due within the coming 12 months, the matter which necessitates calling an Extraordinary General Assembly Meeting to decide the continuity of the company in accordance with the provisions of law 159 for the year 1981.

Report on other legal and regulatory requirements

The Company maintains proper accounting records that comply with the laws and the Company's articles of association and the financial statements agree with the Company's records. The physical inventory count was undertaken by the Company's Management in accordance with the proper norms.

The financial information included in the General Manager's Report, prepared in accordance with Law No. 159 of 1981 and its executive regulation, is in agreement with the books of the Company insofar as such information is recorded therein.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

1 BACKGROUND

Sun Pharma Egypt (L.L.C.) is an Egyptian Limited Liability Company established under the Egyptian Law no. 159 of 1981 and its executive regulations. The company's duration is 25 years starting from the date of registration in the commercial registry. The company is a subsidiary of Sun Pharma Netherlands, which is considered the major shareholder with a share of 99.9%.

The company was located at 3 Ahmed Nessim St., Giza, Egypt.

According to the Extraordinary General Assembly dated 31 December 2016, the company's shareholders approved the change of the main office location to be number 47 street number 270, Albasaten, New Maadi.

The company is registered in the commercial registry in Cairo under no. 103501 on 22 January 1996. The company's legal domicile is in Cairo – Arab Republic of Egypt.

The company's registration in the commercial registry in Cairo under no. 103501 has been renewed on 21 January 2021 until 20 January 2046 .

According to the Extraordinary General Assembly dated 10 December 2013 the financial year end was changed from 31 December to 31 March for each year.

According to the Extraordinary General Assembly dated 15 January 2018 the company name was changed from Ranbaxy Egypt Company (L.L.C.) to be Sun Pharma Egypt Limited (L.L.C.) and the financial year was changed from 31 December to 31 March.

The principal activities of the company are:

1. Constructing, managing and operating pharmaceutical industries and medical raw material.
2. Manufacturing, trading, selling and distributing of all types of pharmaceutical and chemical products, and its related raw materials.
3. Handling all exporting matters
4. Manufacturing for others and at others premises.

The General Manager approved the financial statements as of 31 March 2021 on 28 April 2021

2 SIGNIFICANT ACCOUNTING POLICIES

2-1 BASIS OF PREPARATION

The financial statements are prepared under the going concern assumption on a historical cost basis.

The financial statements are prepared and presented in Egyptian pound, which is the Company's functional currency.

The company's accumulated losses exceeded its issued and paid up capital amounted to EGP 97,449,611 as of 31 March 2021, which raises material uncertainty that may result in significant doubt on the company's ability to continue as going concern. The financial statements were prepared under the going concern assumption since the parent company will continue to support the company in meeting its liabilities as they fall due within the coming 12 months.

STATEMENT OF COMPLIANCE

The financial statements of the company have been prepared in accordance with the Egyptian accounting standards and the applicable laws and regulations.

The accounting policies adopted this year are consistent with those of the previous year.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NEW ISSUED STANDARDS BUT NOT EFFECTIVE

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's special purpose separate financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

• EAS 48 – “Revenue from Contracts with Customers”

EAS 48 was issued in April 2019, and effective from 1 January 2020 in Egypt, establishes a five-step model to account for revenue arising from contracts with customers. EAS 48 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including EAS 11 Revenue, EAS 8 Construction Contracts. Under EAS 48, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

EAS 48 requires entities to exercise judgement, taking into consideration all the relevant facts and circumstances when applying each step of the model to contracts with their customers

• EAS 49: Leases

EAS 49 was issued in April 2019 and effective date is 1 January 2020 in Egypt. This standard will replace EAS 20 “Accounting for finance Leases”:

EAS 49 now requires lessees to recognize a lease liability reflecting future lease payments and a ‘right-of-use asset’ for virtually all lease contracts. There is an optional exemption of certain short-term leases and leases of low-value assets.

Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application.

• EAS 47: Financial Instruments

EAS 47 Financial Instruments that replaces EAS 26 Financial Instruments: Recognition and Measurement. EAS 47 is issued in April 2019 and is effective for annual periods beginning on or after 1 January 2020 in Egypt, with early application permitted. Except for hedge accounting, retrospective application is required but providing comparative information is not compulsory. The Company not elected to early adopt EAS 47.

The new impairment model according to EAS 47 requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under EAS 26. It applies to financial assets classified at amortized cost, debt instruments measured at fair value through other comprehensive income, contract assets under EAS 48 Revenue from Contracts with Customers, lease receivables, loan commitments and certain financial guarantee contracts.

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the Company's disclosures about its financial instruments

Management anticipates that these new standards, interpretations and amendments will be adopted in the Company's financial statements as and when they are applicable and adoption of these new standards, interpretations and amendments, may have no material impact on the financial statements of the Company in the period of initial application

According to the prime ministers decision No 1871 for the year 2020, the new issued Egyptian accounting standards No (47,48and 49) will be effective starting from January 1 st 2021

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-2 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key judgements and estimates that have a significant impact on the financial statement of the Company are discussed below:

Judgments

Revenue recognition for sale of goods

In making their judgment, management considered the detailed criteria for the recognition of revenue from the sale of goods as set out in "EAS 11 Revenue", and, in particular, whether the significant risks and rewards of ownership of the goods have passed to the buyer, which is usually upon the delivery of the goods and the issuance of an invoice.

Estimates

Impairment of trade and other receivables

An estimate of the collectible amount of trade and other receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimate is performed on an individual basis. Amounts which are not individually significant, but are past due, are assessed collectively and a provision is applied according to the length of time past due, based on historical recovery rates.

Useful lives of fixed assets

The Company's management determines the estimated useful lives of its fixed assets for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. The management periodically reviews the estimated useful lives and the depreciation method to ensure that the method and the period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Taxes

The Company is subject to income taxes in Egypt. Significant judgment is required to determine the total provision for current and deferred taxes. The Company establishes provision, based on reasonable estimates, for possible consequences of audits by the tax authorities in Egypt. The amount of such provision is based on various factors, such as experience of previous tax audits and different interpretations of tax regulations by the Company and the responsible tax authority. Such differences of interpretations may be on a wide variety of issues depending on the conditions prevailing in Egypt.

Deferred tax assets are recognised for unused accumulated tax losses to the extent that it is probable that taxable profits will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Impairment of non-financial assets

The Company assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. The non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. When value in use calculations are undertaken, management estimates the expected future cash flows from the asset or cash-generating unit and chooses a suitable discount rate in order to calculate the present value of those cash flows.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-3 SUMMARY SIGNIFICANT ACCOUNTING POLICIES

Foreign currency translation

Transactions in foreign currencies are initially recorded using the exchange rates prevailing that on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rates prevailing at the statement of financial position date. All differences are recognized in the statement of profit or loss.

Nonmonetary items that are measured at historical cost in foreign currencies are translated using the exchange rates prevailing at the date of the initial recognition.

Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates prevailing at the date when the fair value is determined.

Fixed assets

Fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of the building, plant, and equipment when that cost is incurred, if the recognition criteria are met. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the building, plant, and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Depreciation of an asset begins when it is in the location and condition necessary for it to be capable

	Years
Machinery and equipment	5-10
Building	25
Tools and furniture	10
Office equipment	3-10
Leasehold improvements	Lower of estimated useful life or actual rent period

of operating in the manner intended by management, and is computed using the straight-line method according to the estimated useful life of the asset as follows:

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognizing of the asset is included in the statement of profit or loss when the asset is derecognized.

The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end.

The Company assesses at each statement of financial position date whether there is an indication that fixed assets may be impaired. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the statement of profit or loss.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, or the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-3 SUMMARY SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost.

After initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.

The useful lives of intangible assets are assessed as either finite or infinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired, the amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at each financial year end.

Projects under construction

Projects under construction represent the amounts that are incurred for the purpose of constructing or purchasing fixed assets until it is ready to be used in the operation, upon which it is transferred to fixed assets. Projects under construction are valued at cost less impairment.

Inventory

Inventory is valued at the lower of cost (using the moving average method) or net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write down of inventories to net realizable value shall be recognized in cost of sales in the statement of profit or loss in the period the write down or loss occurs. The amount of any reversal of any write down of inventories, arising from an increase in net realizable value, shall be recognized as reduction of cost of sales in the statement of profit or loss in the period in which the reversal occurs.

Accounts and other receivables

Accounts receivable and other receivables are stated at original invoice amount net of any impairment losses.

Impairment losses are measured as the difference between the receivables carrying amount and the present value of estimated future cash flows. The impairment loss is recognized in the statement of profit or loss. Reversal of impairment is recognized in the statement of profit or loss in the period in which it occurs.

Accounts and notes payable, accrued expenses and other payables

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources representing economic benefits will be required to settle the obligation, and reliable estimate of the amount of the obligation can be made. Provisions are reviewed at each statement of financial position date and adjusted to reflect the best estimate.

Where the effect of the time value of money is material, the amount of a provision should be the present value of the expected expenditures required to settle the obligation. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance expense.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-3 SUMMARY SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Social insurance

The Company makes contributions to the Social Insurance Authority calculated as a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when due.

Employees' retirements benefits

The company contributes to the social insurance scheme for the benefits of its employees in pursuance of the Social Insurance Law No. 79 of 1975 as amended. Contributions are charged to expenses as incurred.

Legal reserve

According to the Company's articles of association, 5% of the net profits of the year is transferred to the legal reserve until this reserve reaches 50% of the issued capital. The reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors.

Borrowings

Borrowings are initially recognized at the value of the consideration received. Amounts maturing within one year are classified as current liabilities, unless the Company has the right to postpone the settlement for a period exceeding one year after the statement of financial position date, then the loan balance should be classified as non-current liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the statement of profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance expenses in the statement of profit or loss.

Income taxes

Income tax is calculated in accordance with the Egyptian tax law.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority.

Deferred income tax

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the statement of financial position (accounting base) using the applicable tax rate.

Deferred tax asset is recognized when it is probable that the asset can be utilized to reduce future taxable profits and the asset is reduced by the portion that will not create future benefit.

Current and deferred tax shall be recognized as income or an expense and included in the statement of profit or loss for the period, except to the extent that the tax arises from a transaction or an event which is recognized, in the same or a different period, directly in equity.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-3 SUMMARY SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales taxes or duty.

The following specific recognition criteria must also be met before revenue is recognized:

Sale of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have been transferred to the buyer, usually on delivery of the goods.

Interest income

Interest income is recognized on the basis of the proportion of time taking into account the effective rate of return on the asset.

Expenses

All operating expenses are accounted for including general and administrative costs, and are all included in the statement of profit or loss for the period in which they are incurred.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Related party transactions

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the board of directors.

Contingent Liabilities and Assets

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-3 SUMMARY SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted assets, fair value is determined by reference to the market value of a similar asset or is based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are unadjusted) for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

SUN PHARMA EGYPT (L.L.C.)

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

2-3 SUMMARY SIGNIFIACNT ACCOUNTING POLICIES (CONTINUED)

Impairment

Impairment of financial assets

The Company assesses at each statement of financial position date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Impairment of non-financial assets

The Company assesses at each statement of financial position date whether there is an indication that an asset may be impaired. Where the carrying amount of an asset or cash-generating unit (CGU) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the statement of profit or loss.

A previously recognized impairment loss is only reversed if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

Statement of cash flows

The statement of cash flows is prepared using the indirect method.

Cash and cash equivalent

For the purpose of preparing the statement of cash flows, the cash and cash equivalent comprise cash on hand, current accounts with banks and time deposits maturing within three months less bank credit balances.

SEGMENT INFORMATION

Currently the Company's main business segment is manufacturing, trading, selling and distributing of all types of pharmaceutical and chemical products, and its related raw materials. The company's revenues during the year ended 31 March 2021 were reported under one segment in the separate financial statements.

20 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Overview

The Company has exposure to the following risks from its use of financial instruments:

- a) Credit risk,
- b) Market risk, and
- c) Liquidity risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

The Company's General Manager of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's senior management are responsible for developing and monitoring the risk management policies and report regularly to the Head Quarter on their activities.

The Company's current financial risk management framework is a combination of formally documented risk management policies in certain areas and informal risk management policies in other areas.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk principally from its receivables from customers, due from related parties, other receivables and from its financing activities, including deposits with banks and financial institutions.

Trade and notes receivables

The customer credit risk is established by the Company's policies, procedures and controls relating to customer credit risk management. Credit quality of a customer assessed based on extensive credit rating scorecard and individual

Credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual bases.

Other financial assets and cash deposits

With respect to credit risk arising from the other financial assets of the Company, which comprise mainly bank balances and cash, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

NOTES TO THE FINANCIAL STATEMENTS

For The year ended 31 March 2021

20 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

a) Credit risk (Continued)

Credit risk from balances with banks and financial institutions is managed by local Company's treasury supported by the Head Quarter. The Company limits its exposure to credit risk by only placing balances with international banks and local banks of good reputation. Given the profile of its bankers, management does not expect any counterparty to fail to meet its obligations.

Due from related parties

Due from related parties relates to transactions arising in the normal course of business with minimal credit risk, with a maximum exposure equal to the carrying amount of these balances.

b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as currency risk and interest rate risk, which will affect the Company's income. Financial instruments affected by market risk include interest-bearing loans and borrowings and deposits. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company does not hold or issue derivative financial instruments.

Exposure to foreign currency risk

The following tables demonstrate the sensitivity to a reasonably possible change in USD and EUR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material.

	31 March 2021		31 March 2020	
	Change in rate	Effect on profit before tax	Change in rate	Effect on profit before tax
				EGP
USD	+10%	(2,676,230)	+10%	(6,042,362)
	-10%	2,676,230	-10%	6,042,362
